By order of the Moscow Polytechnic Museum, BTG Expo GmbH was appointed as the responsible logistics provider for the exhibition „Aviation. Morning of a New Era. Russia 1910-1935 „

Up until 27th March visitors to the famous Moscow VDNH site will have the opportunity of viewing a wide selection of vintage aircraft and engines in pavilion #67. The exhibition itself is dedicated to the Russian and Soviet Aviation Industry of the early 20th century and is divided into four sections.

In this respect the curators are covering all aspects of Russian

aviation from the „Birth of Aviation“ and the distinctive features of „Aviation in the Russian Empire“, on to the role of the Russian „Air Force in World War I“ and the later „Achievements of the Soviet Union“.

BTG Internationale Spedition GmbH

New BTG partner in Poland

BTG Branch Office Olching

As of 1st February 2016 BTG Internationale Spedition GmbH's branch office in Olching began working with a new partner in Poland.

Since it started operating in 1989, Röhlig Suus Logistics S.A. has been growing dynamically and today has 18 branch offices in Poland, employing a staff of over 800 people and managing over 100.000 m² in logistics space.

Our partner operates their own nationwide 24-hour distribution network in Poland, to which we are now connected with our daily groupage departures from Olching.

On the basis of this strategic long-term partnership, we

can offer our clients customized transport and logistics solutions not only to and from Poland, but also within Poland and from Poland to other Western and Eastern European countries.

New BTG office in IZMIR

In January 2016 BTG Uluslararası Nakliyat Ticaret A.Ş., Istanbul, the Turkish subsidiary company of BTG Internationale Spedition GmbH, opened its first branch office in Izmir - the third largest city in Turkey with a population of 4.1 million.

Situated on the Aegean coast on the Gulf of Izmir, the city houses the second largest port in the country after Istanbul, which is why in addition to the typical BTG groupage, part and full load transports between Germany / Europe and Turkey, worldwide sea freight import and export services are also being offered.

We are pleased to now be at your disposal in Izmir. Please try us out!

BTG Internationale Spedition GmbH **Rail transport Europe - China**

Container transports by rail between Europe and China - the alternative to air and sea freight!

Since the middle of 2015 BTG has been offering its customers a new service in freight transport to and from China. In addition to air and sea freight, we can offer our customers in China and Europe complete transport solutions by rail.

In September 2015 BTG - together with our longstanding Chinese partner SINOTRANS - handled its first own complete freight train with 45 containers from Lanzhou to Hamburg and back. On 21st September 2015, the first train from Hamburg was seen off with a formal ceremony, which was attended by the Mayor of Lanzhou and senior members of the executive management of SINOTRANS.

Further train services are being offered from Hamburg

pictures: BTG

and Duisburg to Wuhan, Chengdu, Chongqing and Zhengzhou, with weekly departures and a transit time of approximately 15 days for each direction.

Due to the comparatively low transport costs and the relatively short transport times, the rail transport service represents an interesting alternative to air and sea freight.

BTG Bremen - Heavy Cargo in Oman

picture: BTG

No fear of big challenges!

How do you transport two slag pot carriers, which are each 11.98 meters long, 7.73 meters wide and 4.35 meters high and weigh a total of approx. 178 to from Ulm to Sohar in Oman?

This was the question we - together with our long-standing customer, KAMAG Transporttechnik in Ulm - were faced with.

Due to the significant overall dimensions of the vehicles, the only solution was to disassemble them before transport.

The various items - a total of 19 packages - were delivered by low loader from Ulm to the packing shed in Hamburg, where - under the direction of BTG - they were expertly loaded onto eight 40' flat racks

and were shipped via Jeddah / Saudi Arabien to the port of Sohar / Oman for a local steel-works company.

So, we have no fear of big challenges! We can find a solution for virtually any transport problem!

Simply contact us - BTG Bremen's project team is always at your disposal for any inquiries you may have.

picture: BTG

In February of this year, BTG Plochingen's team was delighted to welcome visitors from Barcelona.

José Javier Hernandez and Pia Cadena had come from SEITRANS, Barcelona to discuss with their colleagues in

knowledge of the Spanish language and of the country and its people. Spanish language skills even play a part in the selection process of the trainees in Plochingen.

Seitrans, which was founded in 1990 and belongs to the well-known „Ita-Isempione Group“ (founded 1955), has its core competence in European general cargo (68%), followed by sea freight (27%), logistics and air freight. Both sales and consignment volumes have increasingly grown over

Thus Seitrans offers the service, which BTG - with its high quality standards - demands for its customers.

Plochingen how to further develop business in the Spanish Market, which after years of crisis has now finally been gaining more and more in importance.

BTG Plochingen can look back on almost 30 years of experience in the Spanish Market and many of the long-term employees have a very good

the last years, making Seitrans the ideal Spanish partner for BTG Plochingen. The existing inner-Spanish network allows first-class pick-up and delivery times - this also applies for dangerous goods consignments. The Maghreb states are also connected to this Spanish network.

p.Ressle Spedition GmbH **Recognition for Social Commitment**

„Motivation, commitment and experience - that is what is needed in part-time occupational training“ according to Monika Lex, Deputy Managing Director of the Employment Agency Weilheim.

p. Ressle GmbH & Co. KG Spedition, Schongau enables a single-parent candidate to participate in part-time occupational retraining.

In so doing it supports the Weilheim region's initiative "Pauline" and is breaking new

ground in the area of occupational training.

During a recent event of the Employment Agency Weilheim, p.Ressle GmbH was honoured for its family-friendly social commitment.

BTG Internationale Spedition GmbH **BTG Neuss - New Truck and Trailer Equipment**

Just in time for the turn of the year numerous „old“ trucks of the EURO 4 + 5 classification were replaced by new and more modern truck units under classification EURO 6.

In addition to the general increase in efficiency attained through the new road tractor units (motors + aerodynamics), the lower pollutant emissions achieved through the exclusive use of the Ad-Blue technology has also been a significant factor in deciding to renew our trailer fleet. This being the only way to reach the ambitious environmental and pollution reduction targets of the BTG Group.

These measures have been completed by the additional purchase of bespoke new semi-trailers. By way of example, here you can see a brand new curtain-side trailer with coil well, sliding roof and a

flexible load securing system with traverse beams and steel laths.

The trailer structure corresponds to the VDI standard 2700 page 19 and the tarpaulin sheets are TÜV-certified in accordance with EN 12641-2 Code XL.

All in all the best possible fac-

tors to ensure your goods are transported safely and efficiently!

BTG Messe-Spedition GmbH

Precious Cargo

In February 2016, BTG Messe-Spedition GmbH was entrusted with the movement of some very special cargo.

The highlight was a beautiful oil on canvas painting from the 18th century, which changed owners at a prestigious German auction house.

The proud new owner needed assistance with the professional art packing and safe transport of his precious artwork, and with BTG Messe-Spedition GmbH, he found just the right partner.

The connoisseur owning the painting now, commented:

„If you acquire a painting from another country, and

all of a sudden the painting appears to be at any risk, you really do feel powerless and very scared. You would not know what to do. The team at BTG Messe-Spedition were my heroes at that moment. They helped me even during the weekend to ensure the painting's safety, and that is not something you find with other shipping companies.

My art expert contact from BTG is the most dedicated and careful specialist in transport procedures that I have come across so far. Always just an email away (replies within minutes). All the BTG team were consistently efficient and reliable, and this is what will make me return to

BTG in the future. I can only praise their hard work. Well done and danke BTG Messe-Spedition!..

Here at BTG Messe-Spedition GmbH, the team even got a little attached to the painting, yet it was happy to let it go on its journey...proud to have been part of a very special movement like this.
